Psychological and Health-Related Assessment Tools Developed in China

www.benthamscience.com/ebooks/9781608051861

About the ebook

This book presents a collection of psychological and health-related assessment tools designed and developed in China. The methods and procedures on item and scale formation are described in detail with respect to their relevant cultural background and underpinning beliefs. Results on psychometric properties and validation are thoroughly presented.

Contents
